feasibility studies -

ask for
time
estimate
Flood plain
soil composition
access
user needs.

* test done for contaminants
Need straight test

local
tourist

goals / park plans - time frame

1. Project coordinator
2. Consensus - scope
3. Funding sources (2x plans)

Proposed Concept - then

explore potential options

funding strategies - what needs

* get applications

and funding

on time

what should

be handled

by local

stakeholders

Grant writing - focus - preliminary work

1. Positive attitude
 2. Team approach
 - * 3. Visualize your goal - make a picture and post it
 4. Take responsibility - for your piece of work contracts agreement
 5. Ground rules for meetings agenda - no side conversations
-

1. Project coordinator
2. Consensus - scope
3. - priority - high
4. - outcome

3. funding sources (explore)
project fuppt. then
explore grant options
funding strategies - what needs

* get. applications and funding
Criteria

funding -
what could
be handled
by local
volunteers

4. Legal agreement - CRT - CITY
in writing = need to have
specifics on who
is to do what on
the project

5. collect project materials -
as well as people who
can do tasks. Also helpful
is to find similar project
files - grant applications -
for comparison to the
criteria and requirements
in the applications - cost research
critical to ensure completion

6. Fill the gaps - find any
information that you
don't have

7. assign people to tasks -
in order to pull together
all necessary information

8. fill out application - create
a draft - go over it with
the committee - double check
all information - make sure proper
signatures - tick off

- * keep it simple and clear -
- * make sure it visually looks good -

Politically research is necessary -
make sure you have positive
visibility -

Analyze the grants by
who is your audience
and how do you get to
them -
